

# Verified Inspection Activity Worksheet

This tool is provided for each instructor to document each CPS inspection and practical skills he or she personally verifies for technician and instructor re-certification.

- All re-certification information will be documented within individual online certification records and must be confirmed online.
- **This form should not be submitted to SAFE KIDS**, but it provides important hard-copy documentation for instructor use and personal recordkeeping.

Technician/Instructor Name	Cert #	Check/event Date <small>(and proxy name, if applicable)</small>	RF Only	RF Conv.	FF Harness	BPB	LATCH	Notes
